With regards to the proposed Wind Farm I would have been quite happy to support the project if there were no ill effects created for members of our community.

However, on further investigation it would appear that there is a very high chance that quite a few people will be severely affected both financially and health wise a long way from the towers.

Under these circumstances I could not condone a project that sacrifices some of our own for the benefit of others.

The proposal should not go ahead.

Regards

Ross Goodall
